APEX Interactive Labs

USA Geography Free | Quick Start Guide

Thank You for Your Download!

GeoUSA Free is a fully interactive, self-contained learning app that runs right in your web browser. No internet connection required. No accounts to create. No student data collected. Just open and play!

This guide will show you how to open GeoUSA FREE on every device your students might use.

What's in Your Download

File	What It Is
GeoUSA-FREE.html	The freebie interactive app (10 states, 2 game modes)
Setup-Guide.pdf	This document
Coloured user's guide.pdf	Real gameplay screenshots, explore all 4 learning modes,

Setup by Device

Chromebook (Most Common in Schools)

This is the easiest device. Chromebooks open HTML files directly in Chrome with full functionality.

Step 1: Save GeoUSA-Free.html to the Chromebook (Downloads folder, Google Drive, or USB drive).

Step 2: Double-click (or tap) the file. It opens in Chrome automatically.

Step 3: Click the fullscreen icon (top-left of the app) for the best experience.

That's it! Everything works instantly on Chromebooks.

Windows PC or Laptop

Step 1: Save GeoUSA-Free.html anywhere on your computer.

Step 2: Double-click the file. It will open in your default browser (Chrome, Edge, or Firefox).

Step 3: If it opens in Edge and you prefer Chrome, right-click the file > "Open with" > Google Chrome.

Works perfectly on all Windows browsers.

Mac (macOS)

Step 1: Save GeoUSA-Free.html anywhere on your Mac.

Step 2: Double-click the file. It opens in Safari by default.

Step 3: If you prefer Chrome, right-click > "Open With" > Google Chrome.

Works perfectly on all Mac browsers.

---

iPad and iPhone (Important — Please Read)

Note: Apple's iOS and iPadOS do NOT allow HTML files with JavaScript to run from the Files app. This is an Apple security restriction that affects ALL interactive HTML apps, not just GeoUSA Pro. The Files app will show the page layout but buttons and interactive features will not work.

How to use GeoUSA FREE on iPad / iPhone:

Use the Online Access Link: https://geo-usa-project.vercel.app

...or scan this QR code

Tap "Add to Home Screen" from the Share menu to create an app-like icon for quick access. Once loaded, the app works offline.

Distributing to Students

Via Google Classroom

Step 1: Upload GeoUSA-Free.html to your Google Drive.

Step 2: In Google Classroom, create a new Assignment.

Step 3: Click "Add" > "Google Drive" and select the file.

Step 4: Set sharing to "Students can view file" (do NOT choose "Make a copy for each student" — the file is read-only interactive, not a worksheet).

Step 5: Students click the link and the app opens in their browser.

Via Shared Drive or USB

Copy the HTML file to a shared network folder or USB drive. Students double-click to open. This works great for Chromebooks and desktops with no internet needed.

Game Modes Overview

Mode	What Students Do	Best For
Puzzle	Drag states into correct position on the map	Learning state shapes and locations
Find State	Click the correct state when its name is shown	Quick identification practice
Capital *	Match states with their capital cities	State capitals memorization
Mastermind *	Match states with fact about them	Assessment and advanced learners

Difficulty levels: **Easy** (outlines + names visible), **Normal** (outlines only), **Hard** (no outlines), **Genius** (no labels, no state borders).

*** - available in PRO version**

Device Compatibility at a Glance

Device	Method	JS Works?	Effort
Chromebook	Double-click file	Yes	Zero setup
Windows PC/Laptop	Double-click file	Yes	Zero setup
Mac	Double-click file	Yes	Zero setup
iPad / iPhone	Use online access link	Yes	Open URL in Safari
Android Tablet	Open file in Chrome	Yes	Minimal

Troubleshooting

Q: I see the map layout but buttons don't work.

A: You're viewing the file in a preview mode that doesn't run JavaScript. Make sure to open the file in a full web browser (Chrome, Safari, Edge, or Firefox). On iPad/iPhone, use the online access link provided with your purchase.

Q: The map looks tiny or cut off.

A: Use landscape orientation. On phones, rotate your device sideways. Click the fullscreen button in the top-left for the best experience.

Q: Can students use this without internet?

A: Yes! The HTML file works completely offline on Chromebooks, PCs, and Macs. No internet required after the file is saved to the device.

Q: Can I share this with other teachers?

A: Yes! Please tell your teacher besties about it. We just ask that you share the link to our TpT store so they can download their own copy.

Classroom Safety Features

No Internet Required	**No Student Accounts**	**No Data Collection**	**No Ads Ever**

THE LICENSE (Share the love!)

This is a free resource from Apex Interactive Labs.
My goal is to help as many teachers as possible save time and engage their students.

✅ YOU MAY (Please do!):

- **Share with Colleagues:** Tell your teacher besties about this map!
  You can share the link to my TpT store so they can download their own copy.
  https://www.teacherspayteachers.com/store/apex-interactive
- **Use Everywhere:** Use it on all your classroom devices (SmartBoards, iPads, Chromebooks)..
- **Share with Students:** Post the HTML file or cloud link in your Google Classroom, Canvas, or other secure LMS.

❌ YOU MAY NOT (Prohibited Use):

- **Resell or Claim as Your Own:** You may not sell this file, alter the source code, or remove the Apex Interactive Labs branding.
- **Host Publicly:** Please do not upload this game to open, public websites as your own creation.

💡 PRIVACY & DATA COLLECTION

- Apex Interactive Labs is committed to student safety.
- GeoUSA FREE is 100% COPPA and FERPA compliant.
- The game does not collect, store, or transmit any student data, names, or performance metrics.
- It does not require student accounts or logins.
